

WIOA Pathway Policy Upgrading from LPN to RN

An individual that has received a Licensed Practical Nurse certification, using WIOA funds, is eligible for another Individual Training Account (ITA) using WIOA funds to enter a bridge program that will allow them to acquire a Registered Nurse degree. Income guidelines must still be met to become eligible and a need to train must be established.

WIOA policy of paying no more than \$3,500 per calendar year will be in effect or \$1,750 if one semester is used during a calendar year with two year time limit still in effect. Financial assistance, such as Pell, must be applied for. If financial assistance is received, payment amount for enrollee's tuition will be determined by using the WIOA Cost of Attendance and Unmet Need form.
